

Daan Á. Solís Sisniega

Software Engineer | Backend & Cloud Architecture

📍 Monterrey, MX

✉ daan.solis.sisniega@gmail.com

☎ (52) 782-174-6485

Professional Summary

Backend-oriented Fullstack Software Engineer with 4+ years of experience building **scalable business platforms**, **distributed systems**, and **process automation** solutions. Specialized in **.NET** and **Javascript** ecosystems, **event-driven architectures**, **backend integrations**, and **infrastructure modernization** using RabbitMQ, Docker, Azure, and SQL Server.

Experience **leading technical initiatives** from **architecture** and **development** to **deployment** and **operational support** in startup and high-collaboration environments.

Experience

Boson TI

Software Engineer | Tech Lead

Mar 2025 – present

- Implemented **event-driven** communication **architectures** using RabbitMQ and MassTransit.
- Developed **real-time telemetry notification systems** using SignalR, SMTP and Telegram workflows.
- Led **modernization** initiatives **migrating legacy systems** toward **distributed architectures**.
- Improved deployment workflows using Docker across Azure and IIS environments.
- Worked across SQL Server, MongoDB, .NET, and Vue.js ecosystems.

Stack: C#, Javascript, .NET & .NET Framework, RabbitMQ, Docker, Azure, SQL Server, Vue.js, Claude.

IH English Academy

Fullstack Developer (Freelance)

Nov 2024 – Feb 2025

- **Designed** and **developed** a custom Academic **ERP platform** for administrative and **academic operations**.
- Built **modules** for attendance, scheduling, reporting, grade management, certificate generation, and more.
- Led **data migration**, **deployment**, **rollout**, and user **onboarding** processes.

Stack: React, Next.js, Supabase, PostgreSQL, TypeScript.

Cenit Startup Studio

Fullstack Developer | Tech Lead

Feb 2021 – Dec 2024

- Led development of **10+ software initiatives** across **ERP**, **logistics**, **E-commerce**, and **fintech** environments.
- Developed **backend services**, **ERP customizations**, and operational **automation systems**.
- **Developed** and **implemented financial reconciliation** and **credit** services integrating ERP workflows and payment platforms.
- Built **Python**-based anomaly detection and operational **analysis** tools.
- **Collaborated** directly with **stakeholders** on architecture and process **digitalization initiatives**.

Stack: Python, Odoo, React, Node.js, Django, AWS, REST APIs

Technical skills

Backend: C#, .NET, Node.js, REST APIs, Distributed Systems.

Frontend: React, Next.js, Vue.js, Typescript.

Databases: SQL Server, PostgreSQL, MongoDB, Data Modeling.

Practices: Clean Architecture, Scrum, SOLID, SDD.

Infrastructure: Git, RabbitMQ, Docker, Azure, IIS, System Design.

Education & Languages

Mechatronics Engineering - Instituto Tecnológico de Poza Rica

English - B1 Professional Working Proficiency
